Commencing the Term

Requirements for commencing the term* If there are any specific requirements (e.g., courses, procedural skills, or e-learning requirements) provide details of how the prevocational doctor will receive this training/will be assessed.	Before starting the term, please review: <ul style="list-style-type: none"> Psychiatric history taking Knowledge of performing a mental state examination
Orientation Include detail regarding the arrangements for orientation to the term, including who is responsible for workplace orientation and any additional resource documents such as clinical policies and guidelines required as reference material. The term supervisor is responsible for orienting the JMO to the term requirements and clinical expectations within the first week of starting the term.	<p>JMOs should contact and make themselves known to the AMHU reception staff who will contact Acting Assistant Director of Nursing (ADON) or the Clinical Nurse Consultants on the commencement of their term for an initial orientation.</p> <p>Please arrive in AMHU at 08:00 am on your first day, for a brief orientation to the unit, prior to the daily clinical meeting with the MDT at 8:30 am in the Hand-over Room opposite HDU.</p> <p>JMOs should also arrange a meeting with their term supervisor during the first two weeks of term to discuss expectations and goals.</p> <p>Please also make yourself familiar with AMHU operational procedure documentation on emergency procedures and patients going AWOL.</p> <p>The Adult Acute Mental Health Operations manual will provide additional information on the provision of care within the unit. Mental health specific policies and protocols will also be available on the unit and the online policy register.</p>

Overview of the Unit

The role of the unit and range of clinical services provided, including an outline of the patient case mix, turnover and how acutely ill the patients generally are

At the Canberra Hospital, mental health services are provided through the division of Mental Health, Justice Health and Alcohol & Drug Services. The services provided range from prevention and treatment to recovery and maintenance and harm minimisation.

Consumer and carer participation are encouraged in all aspects of service planning and delivery. The Division works in partnership with consumers, carers and a range of government and non-government service providers to ensure the best possible outcomes for clients.

The MHSSU is an acute adult mental health inpatient unit that cares for people with moderate to severe mental illness or disorder. The MHSSU is a 6-bed inpatient unit. An ideal average length of stay is approximately 3 days for people receiving care in this unit, however patients requiring admission greater than 72 hours would occasionally also receive care in this location. The medical staff to patient ratio is aligned with the current Adult Mental Health Unit and RANZCP guidelines.

Role of Unit:

- To provide assessment and treatment for patients with psychiatric illness and mental dysfunction in the least restrictive environment.
- To provide mental health services as part of a system of care integrated with the community clinics and outreach services.
- To work collaboratively with patients and their families and carers.
- To train medical students and graduates in the assessment and management of mental illness and dysfunction.
- To teach nursing and allied health staff in the area of mental health.
- To provide timely assessments requested by the ACAT Mental Health Tribunal and Magistrates' Court. (This is rare in MHSSU)

Clinical responsibilities and tasks of the prevocational doctor

Provide an overview of the routine duties and responsibilities

CLINICAL MANAGEMENT:

The MHSSU team care for patients with acute, complex, and enduring mental health issues. The JMOs will work with the medical and multidisciplinary team to support the care and treatment of patients, including but not limited to the charting of medications, physical examinations, mental state reviews, seclusion reviews and completion of discharge plans.

	The JMO is also expected to attend daily handovers, MDT meetings, complex case reviews and training sessions to support their training, education, and development of clinical competencies.
Work Routine Provide an overview of the work routine	Work routine and tasks are outlined in more detail in the Rover guide.
Clinical handover procedure Provide an overview of the handover procedure and expectations in this training term	<p>Morning handover is by way of the Daily clinical handover meeting at 08:30 am in hand-over room.</p> <p>Evening shift JMO starts at 1:00pm and there is an opportunity of face-to-face handover around 4:30</p> <p>Night handover is at the Auditorium with MED POD 3 at 9:00pm</p>
Safety	<p>Occupational Violence</p> <p>While rare, occupational violence is a risk in all departments. JMOs should:</p> <ul style="list-style-type: none"> • Always maintain a clear exit path from the bedspace when seeing patients. • Know how to call a code black (either through dialling '2222' from a ward phone or pressing a Code Black button) and wear appropriate duress alarms in areas where these are required. • Be alert around patients who are delirious, confused or known to have previously engaged in violence. • There are occasionally patients suffering from psychosis or hallucinosis. Such patients can unintentionally be frightened or violent as part of their illness. If the RMO feels endangered or threatened in any way by such behaviours, they should withdraw immediately from the patient and the issue should be raised immediately to the CNC and/or Staff Specialist on duty that day. <p>Other OH&S and safety in pregnancy is dealt with in the JMO Handbook.</p> <p>The Psychiatric Medicine Unit supports Speaking Up For Safety of patients and staff.</p>
Opportunities for Indigenous Health	Aboriginal and Torres Strait islander peoples may present as patients within this term and JMOs will be able to engage the support of the Aboriginal Liaison Officer as required for patients and their families and improve their knowledge, and skills around cultural safety.

Education, Learning and Assessment
